Local Bed & Breakfast Launches Virtual Tour

Latest Technology Encourages visits to Brandywine Valley.

AVONDALE, PA, January 31, 2008: How can visitors to the Brandywine Valley tour this beautiful, historic Bed and Breakfast at Walnut Hill without leaving home? Simply log on to Bed and Breakfast at Walnut Hill's new "virtual tour."

Sandy and Tom Mills, the B and B's innkeepers, recently launched the virtual tour as part of their marketing efforts for 2008. This exciting new technology showcases Walnut Hill as a lovely accommodation for visitors to the beautiful Brandywine Valley.

"We were delighted with the finished product," Sandy Mills said. "As we enter the twenty third year of innkeeping, we look forward to a banner year as a result of this virtual tour."

The Mills chose VirtualToursCompany.com to create, build and power their virtual tour. Lancaster County photographer George Sheldon photographed and made the images used on the virtual tour.

"We developed this new feature to promote interest in our B and B," explained Tom Mills, who manages the computer and technology used to market the couple's bed and breakfast. "All the features of our property are represented here, which makes our virtual tour a way for guests to appreciate the quiet setting of this Chester County farmhouse and its proximity to all of the area's major attractions.
